## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Birdwell (US 896,269).

Birdwell shows an adjustable mirror device including an elongated rod(1), clamping assembly(8,9) attached to the rod, and a mirror assembly attached to the rod and including a mirror(18) which is slidable along and rotatable about the rod (via the clamping assembly).

### *Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Birdwell and Magiske show mirror assemblies slidable along and rotatable about elongated rods.
